Request for Comments: Trademark Litigation Tactics.

---

1. *Please identify whether you are a trademark owner or practitioner, and the general size and nature of your business or trademark practice, including the number of trademark applications and registrations your business has, or your practice handles. Please note that the USPTO will fully consider any comments you submit, even if you choose not to identify yourself in a particular manner.*

Owner of an art-shop, one-man business.
I'm being harrassed, stalked and annoyed by this country's government. The Danish Government send and uses information that belongs to the state/system for a political agenda, that I don't wanna be a part of.

10. *What other U.S. agencies may have a responsibility to do something about the problem?*

If there is American-trained Remote Viewers around, and deployed by the Government to suppress the political opponent, then the relevant agencies would need to discuss the use of their patented technology, and the ethics thereof.

12. *Please provide any other comments you may have.*

I wish you all the best, and more room for discussions regarding the technologies invented by Agencies/Contractors/or Corporations.

What's the status? Are the Government aware of their inventions being used by Corporations to harrass market-competitors. Outsourced contracts and vendors orders from no-mans land.

Please write again, if you think I could be of any help.

Best regards,

Jesper Kold Rasmussen
